COMMENTARIJ CN. CORNELI LENTULI QUAESTORIS PRO PRAETORE

Cn. Cornelius Lentulus quaestor pro praetore Brasiliae Sex. Lucilio et A. Tulliae consulibus et senatui Rei Publicae Novae Romanae s. p. d.

Si valetis et res publica valet, nos et Brasilia valemus.

Most esteemed consuls and patres conscripti, I have a difficult time reporting the status of Nova Roma in our Brazilian province: on one hand, we have a good albeit unofficial partnership with Vila Pagã and its leader C. Iulius Lepidus, our citizen. We have conducted several negotiations and prepared plans to build Provincia Brasilia around the Vila Pagã project, however, C. Iulius concluded that he does not have the time and the knowledge to be the leader of Nova Roma in Brasilia, at least not for the time being. This means that we continue our collaboration, which has been manifested in joint rituals and ceremonies, but we cannot base Nova Roma in Brasilia on Vila Pagã.

This unfortunately meant that I had to reinvent my strategy as reorganizing governor, and at the time of the writing of this report, I am still looking for possibilities and opportunities to connect Nova Roma in Brazil, and to get our old citizens there motivated and active again.

Our cooperation with Vila Pagã gives a solid foundation to build on, but we need to find a Roman group in Brazil: unfortunately I could not find any thus far, no legion, no gladiatorial group, nothing. Meanwhile, I will work on making our Brazilian Nova Romans more active, and to make more use of our Facebook group. If I will not be successful, I'm afraid it will be better to leave Brazil without a Nova Roman province, as long as there is not enough local need for our our commonwealth, our republic, for our ideas and service.
